

Product Installation Instructions

Rain/Drip Gauge

To complete installation you will need:

• Rain/Drip Gauge (located in your kit)

Instructions

- Determine approximately how long your sprinkler runs each week.
- 2. Take the Rain/Drip Gauge from inside your kit and set it in the middle of your lawn.
- 3. Run the sprinkler for 10 minutes and see how much water accumulates in the gauge.
- 4. Empty the Rain/Drip Gauge.
- Now place the Rain/Drip Gauge in another area of your lawn and repeat.
